ABOUT ME

As a Computer Science Engineering student, I bring enthusiasm and innovative thinking to every challenge. My strong grasp of programming and web development, coupled with my team management skills, positions me to leverage analytical skills in a reputable organization. I am committed to contributing positively to team successes and continuously expanding my knowledge.

PROJECTS

MindLink - Collaborative Group Study Platform

A Group Study Site that enhances collaborative learning.

- Developed a collaborative study platform supporting real-time video meetings and group discussions for multiple users.
- Created group chats for users to share notes and study materials.
- Collaborated with team members using Jira for project management and team collaboration.
- Conducted testing and debugging to ensure platform functionality.

Calories Burnt Predictor

Tech Stack: Python, Pandas, NumPy, Scikit-learn, Matplotlib, Jupyter Notebook

- Developed a machine learning model to predict calories burnt during physical activities.
- Performed data analysis on activity type, intensity, and personal factors to improve prediction accuracy.
- Improved prediction accuracy through machine learning model training on multiple datasets.

Medical Hub – Full Stack Medical Appointment & Healthcare Platform

Tech Stack: React.js, Node.js, Express.js, MySQL, JWT, REST APIs

- Built a full-stack healthcare web application for online appointment booking and patient interaction.
- Implemented JWT-based authentication for user login and session management.
- Developed features for booking, viewing, and managing appointments along with detailed doctor profiles.
- Designed RESTful APIs for API development and integrated MySQL database for efficient data management.

SKILLS

- Programming Languages: Java, C++, JavaScript
- Frontend: HTML, CSS, React.js
- Backend: Node.js, Express.js
- Databases: MySQL, MongoDB
- Tools: Git, GitHub, Jira, VS Code

CERTIFICATIONS

- Completed L4G-Google Gen AI course by Google Cloud.
- Got a badge in CISCO Cybersecurity Specialization.
- Certificate in Strategic Leadership: Impact, Change, and Decision-Making.

EDUCATION

2022 – 2026 | B.E in Computer Science | CGPA: 8.23 | [Chitkara University](#)

2021 – 2022 | Class 12 (CBSE) | 86.4% | [DAV School](#)

2019 – 2020 | Class 10 (CBSE) | 89.6% | [DAV School](#)
